

20Pin Adapter Board

20Pin Adapter Board

Introduction: This is a matching conversion board with hot sale product Xbee. It is very simple in design. This board converse all 20 pins of Xbee to double-row pins with 0.1 inches standard distance, the distance between the raws are 0.5 inches. Corresponding pins are marked out with corresponding screen printing, easy to identify. We use a female socket, so no need to solder XBee to the board. Features: 2 x10 20 pins.

List: 1 Xbee Shield bottom board
